

Statement of Objection

Congregations, employers, and individuals who are paying dues that might be used to support someone's dependent may formally object to same-gender spouses of Benefits Plan members receiving coverage. The 219th General Assembly (2010) urged the Board of Pensions to make benefits available to same-gender spouses of plan members and the spouses' children. The 219th General Assembly also asked the Board to provide relief of conscience to those for whom this posed a moral dilemma. The statement of objection approach came out of an extensive review of options. The following churches have recorded an objection.
